The main direction of scientific activities:

Geotechnical and mining mechanics, study of patterns of stress-strain state formation in rock massifs, geodetic monitoring of man-made territories, buildings and structures.

Employment History

Surveying engineer.

1976-1980

Senior engineer of the research sector of the Department of Surveying at Dnipropetrovsk Mining Institute (DMI), Dnipropetrovsk

1980-1981

Teaching Assistant of the Department of Surveying at Dnipropetrovsk Mining Institute (DMI), Dnipropetrovsk.

1982-1992

Associate Professor of the Department of Surveying at State Mining Academy of Ukraine (SMAU), Dnipropetrovsk.

1992-2000

Head of Department of Surveying at National Mining University (NMU), Dnipro.

2000-2007

Associate Professor of the Department of Land Management, Road-Building and Geodesy at Prydniprovsk State Academy of Civil Engineering and Architecture (PSACEA), Dnipro

2007 – 2017

Associate Professor of the Department of Highways, Geodesy and Land Management at Prydniprovsk State Academy of Civil Engineering and Architecture (PSACEA), Dnipro

2018- Present

Education

Mining Faculty Specialty “Mine Surveying”, Dnipropetrovsk Mining Institute. I was qualified as Mining Engineer-Surveyor.

1971-1976

Postgraduate student at the Dnipropetrovsk Mining Institute (DMI), Dnipropetrovsk

1987 – 1991

Doctoral Student at National Mining University (NMU), Dnipro.

2004-2007

Science degree

Received the academic title of Associate Professor, St. Petersburg

1992

Theme of the thesis: “Geomechanical substantiation of mining operations in the marginal part of the coal seam”, specialty 05.15.01. – Surveying.
