

Department of Construction Technologies

Al'ona Kutsenko-Skokova, Assistant Professor

Date of birth:

03/08/1985

Address:

Architect Oleh Petrov street, 24a, 49000,

Dnipro, Ukraine

E-mail: kutsenko.alona@pdaba.edu.ua

Website: <https://pgasa.dp.ua/kytccenkoao/>

Education

2002-2007 – Master's degree in Civil Engineering. Specialization - Technology and Organization of Industrial and Civil Engineering, Prydniprovsk State Academy of Civil Engineering and Architecture

2010-2012 – Postgraduate course in Civil Engineering, Prydniprovsk State Academy of Civil Engineering and Architecture

Academic degrees

2013 - PhD degree in Civil Engineering. Specialty 05.23.08 – Technology and Organization of Industrial and Civil Engineering. Thesis "Developing technology services on recovery properties of facade thermoinsulation of buildings with thin-layer plaster finishing".

Work Experience

2013 – present – Assistant Professor, Department of Construction Technologies

2008 – 2013 – Assistant, Department of Construction Technologies

Research

Resource- and energy-saving technologies in construction.

Technologies of reconstruction and restoration of buildings.

Current Research:

Development of new technological solutions to increase the energy efficiency of buildings

Past Research:

Improvement of the organization and production technology of construction and assembly works, taking into account the conditions of repair and reconstruction of buildings and structures (State Registration №0111U6477)

Improvement of technological solutions for arranging thermal insulation of heat-conducting inclusions of residential construction objects

Development of new technologies and technical means for the arrangement of openings in load-bearing walls during the modernization of civilian buildings with their redevelopment and increase of the useful area (State Registration №0109U001402)
