 architect O. Petrov street, 24a

EDUCATION

Prydniprovskaya state academy of civil engineering and architecture (PSACEA), Dnipro, Faculty of Information Technology and Mechanical Engineering

**Specialty
«Materials Science»**

THE MAIN DIRECTION OF SCIENTIFIC ACTIVITIES

Research on the formation of structure, texture, and properties in titanium alloys depending on the manufacturing parameters, namely pipe rolling at various stages of the technological process.

EMPLOYMENT HISTORY

Student at Student of the National Metallurgical Academy of Ukraine (NMetAU) 2006-2011

Assistant of Department of materials science and materials processing 2016-2021

SCIENCE DEGREE

Received the science degree «Candidate of Technical Sciences (Ph. D.)» in 2021.

The subject of the thesis: «FORMATION OF THE STRUCTURE, TEXTURE AND PROPERTIES OF PIPES IN TITANIUM ALLOYS AT DIFFERENT STAGES OF PRODUCTION», specialty 05.02.01 - Materials Science

ACADEMIC TITLE

Received the academic title of associate professor of «materials science and materials processing» at Prydniprovskaya State Academy of Civil Engineering and Architecture (PSACEA), Dnipro, 2022

SKILLS

Proficient in using MS Office, Canva and Adobe packages. Ability to self-develop and learn, as well as having unconventional thinking.
